SHOW RULES AND REGULATIONS:

Our basic rules and regulations are simple common sense rules.

No early pack up unless permission is given by the promoter.

Booths must be manned at all times (bathroom breaks or lunch breaks requires a fellow crafter or promoter to watch the booth). Our crafters are very considerate of their fellow crafters and are willing to help each other.

Any problems with Security, Maintenance or Management need to be addressed by the promoter. We ask all crafters refer all complaints to the promoter. We have a very good relationship with Management, Maintenance and Security and would like to keep it that way.

In some of our Malls, Extension cords are to be supplied by the crafter: 12gauge cords are preferred, household extension cords are not allowed because of Fire Ordinances.

Loading and unloading at specified times only and **DO NOT BLOCK HANDICAP RAMPS**. Allow space for others to use carts on the ramp while loading or unloading

Clean up your space when packing up and place all trash in proper Mall receptacles. Empty boxes are to be placed in Trash Containers outside the mall.

Insurance is suggested but not specifically required of our Crafters.
